

## UNPACKING INSTRUCTIONS

Thank you for your continued interest in our products. Canadian Solar is committed to provide high quality and high performance solar modules to assist your PV business growth. This document provides unpacking instructions to our vertical packaging solution for solar modules.

The following instructions are applicable to (Bi)HiKu6, TOP(Bi)HiKu6 (except for CS6.1-72TB and CS6.1-72TD), (Bi)HiKu and HiHero.

# UNPACKING INSTRUCTIONS FOR CS6.1-72TB and CS6.1-72TD

①

②

Cut all the straps outside the carton.

④

③

Remove the cover.

Remove the carton and remove the four horizontal straps (marked in red) and one strap at each of the yellow marked positions.

Remove the box by opening the Velcro on the diagonal of the package.

⑤

⑥

Push the module against a leaning object (e.g., a wall, a bracket, another bracket assembly, etc.) and remove the remaining packing tape.

Two workers work together to remove components for placement or installation.

## Attention:

- The modules are vertically packed in the box.
- Please place the pallets on a flat area before unpacking.
- Please wear gloves to prevent your hands from injuring.
- Do not unpack the whole box before taking out all the modules.
- Two workers are required to unpack modules from the packing box. When handling modules always use both hands.
- Please take photos and contact the local sales/customer service staff at first time if you encounter with damaged package or modules, and feedback to the service mailbox, [support@csisolar.com](mailto:support@csisolar.com). If the customer does not unpack the module according to the steps specified in this manual, we shall not assume any responsibility for the personal and property damage.
