

HIKU MONO

RELAX, WE'VE GOT YOU COVERED!

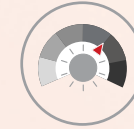

HIKU MONO PANELS

High Power Dual Cell PERC Mono Module
CS3L-MS 120 cells, CS3N-MS 132 cells
Power range: 360 ~ 425 W

Higher power output - fewer panels are needed to power your home

Cutting-edge cell technology, for efficient power you can rely on for years to come

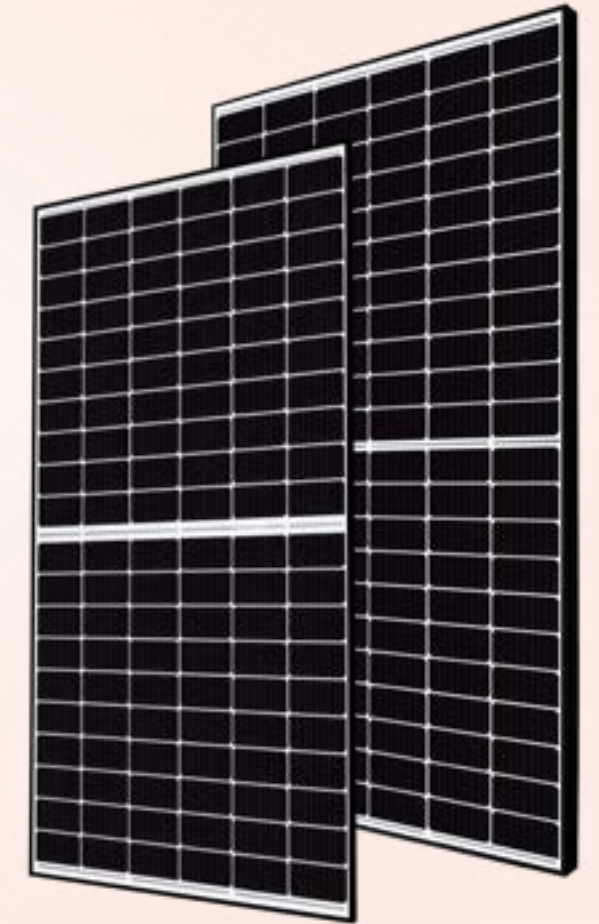

Split-cell technology ensures the HiKu stays cool, making it a safer choice for your home

PRODUCT WARRANTY

PERFORMANCE WARRANTY

NEW HIKU MONO, GREATER EFFICIENCY WITH DISTINCT 25 YEARS WARRANTY

Canadian Solar's HiKu panel is now available as a Monocrystalline panel with black frames, under 25 years limited product and performance warranty*. Our HiKu product range utilises our innovative Ku Module technology. This split-cell, dual-module design, ensures the HiKu stays cool under the Australian sun, enhancing the reliability of the panel over conventional solar modules.

*subject to Limited Warranty Statement - Ku&HiKu Series 2021 v1.6 AU

**WHY SETTLE FOR LESS? WITH 442 QUALITY CONTROL POINTS
YOU CAN BE SURE THAT CANADIAN SOLAR PANELS ARE
BUILT TO LAST**
