

YOUR LOCAL EXPERT UNDER THE AUSTRALIAN SUN

A Visionary Founder

Canadian Solar was founded in 2001 in Canada by Dr. Shawn Qu with a bold vision that still stands to this day: to foster sustainable development and to make lives better by bringing electricity powered by the sun to millions of people worldwide

A Strong Local Presence

A team of 50+ highly skilled local experts with a rich diversity to answer your every need

Industry Leading R&D

Canadian Solar's comprehensive product portfolio can meet your solar needs with leading PV module and inverter technology

A Brand that Cares

Canadian Solar is dedicated to making the difference wherever it operates which is why we recycle all our modules in Australia at the end of life cycle

442 Quality Control Points

To ensure our customers always get the best quality products, Canadian Solar panels go through 442 quality control points from raw material to product delivery

25 Years Warranty

Canadian Solar is committed to providing long-lasting products to our customers. We are proud to offer 25-year product warranty* for the modules on the residential rooftop installations

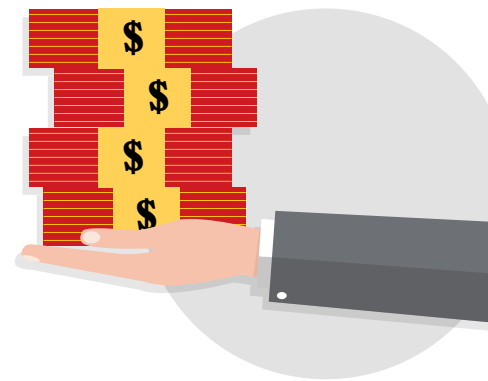

A Diverse Business Model

Canadian Solar is a total system solution provider, with a team of experts covering Project Development, EPC, O&M, and Asset Management

A Bankable Brand

Backed by Canadian Solar's global expertise and bankability, our Australian team continues to provide cutting-edge and world class solar solutions to you

* Subject to Canadian Solar's Limited Warranty Statement - Ku&HiKu Series 2021 v1.7 AU
