

One Supplier, More *Power*

Canadian Solar all-in-one bundle package

Discover the power of simplicity

At Canadian Solar, we understand the evolving needs of today's homeowners and solar professionals. That's why we're proud to introduce our residential solar bundle — a smart, streamlined solution that combines performance, reliability, and support in one cohesive package.

Why Choose Our Solar Bundle?

One Supplier. One Solution.

Simplify your procurement, logistics, and technical support with a single, trusted brand.

Trusted Quality

Backed by Canadian Solar's decades of experience and rigorous product testing, this bundle delivers long-term performance and peace of mind.

Expert Support

We support our installer partners with marketing materials, technical assistance, and a growing bundle portfolio.

Residential Bundle Solution

01 Solar Module

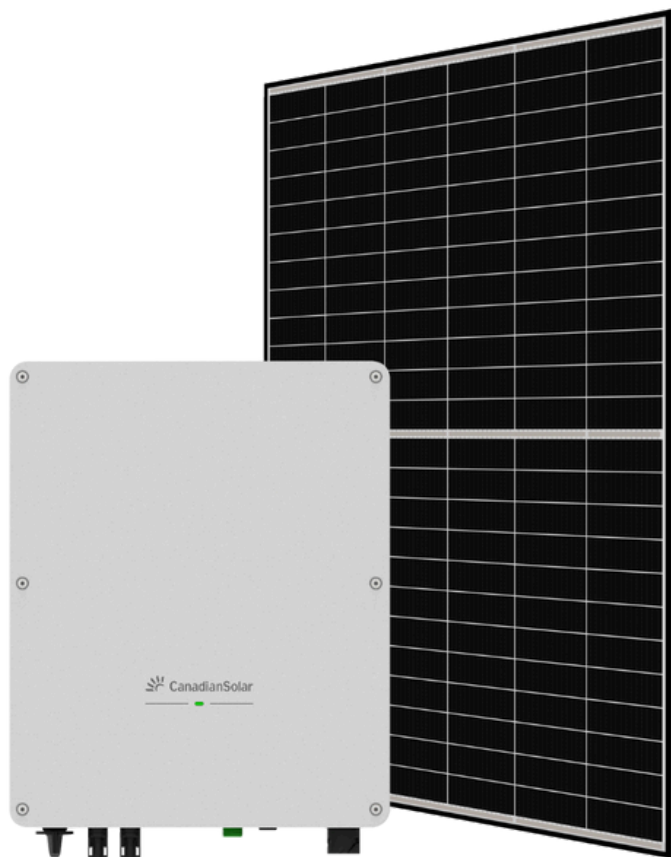

14 X CS6.2-48TD

specifically designed for residential solar systems, combining exceptional performance with sophisticated aesthetics.

02 Inverter

1 X CSI-5kW single-phase

Compact and lightweight; easy one-person install, perfectly paired with our panels.
