

A LEADING SOLAR AND ENERGY STORAGE SOLUTIONS PROVIDER

COMPANY OVERVIEW

FOUNDED 2001
IN ONTARIO

AROUND 13,000 EMPLOYEES
33% FEMALE WORKFORCE

180 GW OF SOLAR MODULES SHIPPED,
WITH 23 GWH STORAGE SOLUTIONS

MORE THAN 2,000
VALID PATENTS MAINTAINED

H1 2026 REVENUE
US\$2.3 BILLION

TIER 1

PV MODULE & BATTERY ENERGY
STORAGE SYSTEM SUPPLIER*

A WORLD-CLASS POWER SOLUTIONS COMPANY

Dr. Shawn Qu
Founder,
Executive Chairman and CTO

Colin Parkin
Chief Executive Officer

Executive Chairman and Chief Technology Officer Dr. Shawn Qu founded Canadian Solar in 2001 with a bold vision: to foster sustainable development and to make lives better by bringing electricity powered by the sun to millions of people worldwide. Nearly 13,000 dedicated employees of Canadian Solar (NASDAQ: CSIQ) strive each day to make this vision a reality.

Canadian Solar is a leading provider of solar photovoltaic modules, battery energy storage solutions, and utility-scale project development.

Over the past 25 years, we have delivered nearly 180 GW of premium solar modules to customers in more than 160 countries—helping power millions of homes with reliable, sustainable energy.

Through our subsidiary e-STORAGE, we are driving the global transition to smarter energy systems, having shipped over 23 GWh of advanced storage solutions and securing a US\$3.5 billion contracted backlog as of 30 June 2026. Since entering project development in 2010, Canadian Solar has successfully developed, built, and connected approximately 12.4 GWp of solar and 6.4 GWh of storage projects worldwide.

With a pipeline of 22 GWp in solar and 84 GWh in battery storage, Canadian Solar is uniquely positioned to deliver end-to-end solutions. By combining innovation, quality, and cost-competitiveness, we simplify the entire project life cycle and create lasting value for our customers and partners.

A GLOBALLY RECOGNISED LEADER IN SOLAR AND ENERGY STORAGE

THE GLOBAL TOP 10: SOLAR'S MOST FORMIDABLE MANUFACTURERS 2025

Canadian Solar has been ranked among the world's top 10 solar module manufacturers by Wood Mackenzie, achieving the No.4 position globally. This recognition underscores our leadership in advanced technology, proven reliability, and sustainable practices, reaffirming Canadian Solar as one of the most trusted names in the global solar industry.

STRONG LOCAL SALES AND PROJECT TEAM

MULTI-FACETED, MULTI-CULTURAL, MULTI-TALENTED

The headquarters of Canadian Solar’s energy and sales businesses in Australia are in Melbourne. Those highly skilled and motivated employees within our Australian team encompass all relevant functions: project development, sales including key accounts and regional sales, business development, finance, technical, marketing, operations and legal affairs. With all this talent in-house, we can offer our customers the full range of services, from pre-sale consultation and system design to after-sale service and training.

Moreover, our team brings together people of more than 10 different nationalities, ensuring that we have the cultural competence to understand and serve customers across Australia. This rich diversity also makes our Melbourne office a great place to work.

MISSION

Lead the energy revolution and create a bright future together!

VISION

Power the world with solar energy and create a better and cleaner earth for future generations.

CORE VALUES

BALANCE

PLAY

RESPECT

UNITY

NEWEST TECHNOLOGY

INTRODUCING OUR NEW TOPCON GEN 3 MODULES - CS6.3

TOP(Bi)HiKu6 (182PRO) CS6.2-54TD / CS6.2-54TB

15 years
25 years
30 years *

TOPCon 108 cells: up to 540W, (All-Black and bifacial versions are available)
Efficiency: up to 24.3%

Up to 85% Power Bifaciality

Cell size: 182 X 210 mm
N-Type TOPCon

Lower Voc for safer and more flexible designs

Lightweight
Easier handling and installation

Durable dual-glass construction for reliable long-term performance

TOPHiKu6 (182PRO) - TOPCON GEN 3 CS6.3-48TD

25 years
30 years *

TOPCON 192 cells: 475W
Efficiency: 23.8%

Multi-cut cells and cell-overlap design for higher power density

Premium all-black design for seamless rooftop integration

Lightweight
Easier handling and installation

30-year power performance warranty*
Minimal degradation

MAXIMISED ENERGY YIELD WITH ADVANCED MULTI-CUT CELL TECHNOLOGY

TOPBiHiKu6 (182PRO) - TOPCON GEN 3 CS6.3-66TB / CS6.3-66TB-HP

12 years
30 years *

Bifacial TOPCon 264 cells: up to 670W,
Efficiency: up to 24.8%

Up to 90% Power Bifaciality

Multi-cut cells and cell-overlap design for higher power density

Anti-hail version is available

Excellent hot-climate performance and lower hotspot temperature

Low 0.35% annual degradation, retaining at least 88.85% power after 30 years

TOPBiHiKu7 CS7N-TB-AG

12 years
30 years *

Bifacial TOPCon 132 cells: up to 760W,
Efficiency: 24.5%

N-Type bifacial TOPCon technology

Up to 85% Power Bifaciality, more power from the back side

Excellent anti-LeTID & anti-PID performance

Lower LCOE & system cost

CANADIAN SOLAR MOVES TOWARDS OFFERING A FULL SUITE OF SYSTEM SOLUTIONS, ENABLING US TO SERVE YOU AS A ONE-STOP SHOP.

KUBANK 3.0

C&I ENERGY STORAGE SYSTEM
CAPACITY: 836 KWH

LARGE-SCALE
FIRE TEST
PASSED

Active balancing BMS at pack and rack levels, with 2A balancing current to maximise usable energy and extend battery life

Integrated modular design for flexible system configuration, simplified installation and efficient commissioning

Intelligent liquid cooling maintains optimal cell temperatures, with a temperature difference of < 3°C

IP67-rated battery packs protect against dust, moisture and water condensation

Industry-first C&I energy storage system to pass large-scale fire testing under UL 9540A:2026, with no explosion or fire propagation to neighbouring units

SOLBANK 4.0

ENERGY STORAGE SYSTEM
CAPACITY: 6.25 MWH

e-STORAGE
A subsidiary of Canadian Solar

Enhanced Energy Density

6.25 MWh capacity in a highly integrated 20-foot container, with over 15% higher project-level energy density

Optimised Lifecycle Performance

Advanced technologies support reliable performance for up to 25 years

Intelligent Safety & Control

Cell-level monitoring enables early warnings and multi-layer protection

Simplified Installation

Factory pre-installation and an integrated containerised design reduce onsite work and EPC costs

EP CUBE **

RESIDENTIAL ENERGY STORAGE SYSTEM

10
years *

Customizable Storage Capacity

Scalable from 10kWh to 40kWh in 5kWh, meet various customer needs

Higher PV Input

Supports 4MPPTs and up to 24kWp of PV input

Flexible and Reliable

Safe LFP tech, IP67/IP65 weatherproofing, and IEC certified

Real-Time App Control

Full visibility and remote control over homes' energy flow through the EP Cube App

** AVAILABILITY SUBJECT TO LOCAL CERTIFICATION AND SUPPLY TIMELINES

BESS SOLUTIONS 4.0

INTEGRATED UTILITY-SCALE ENERGY STORAGE
DURATION: 1.5 TO 8+ HOURS
RATED POWER: 2 MW TO 500+ MW

e-STORAGE
A subsidiary of Canadian Solar

Vertically Integrated

In-house cells and system assembly ensure quality, cost control and delivery certainty

Validated System Integration

Pre-tested, integrated design accelerates commissioning and reduces project risk

Intelligent EMS Control

Site-wide optimisation, real-time diagnostics and remote control maximise system uptime

Flexible Project Deployment

Modular, scalable solutions with global compliance and engineering support

* Subject to the terms and conditions contained in the applicable Canadian Solar Limited Warranty Statement.

* Subject to the terms and conditions contained in the applicable Canadian Solar Limited Warranty Statement.

PROJECT DEVELOPMENT PIPELINE

GLOBALLY DIVERSIFIED PROJECTS

CANADIAN SOLAR HAS DEVELOPED AND BUILT LARGE-SCALE SOLAR PROJECTS FOR CUSTOMERS ACROSS THE GLOBE. OUR PROJECTS HAVE EARNED A REPUTATION FOR DELIVERING THE HIGHEST ENERGY YIELD AND RETURN ON INVESTMENT.
