

YOUR ONE-STOP SHOP TO HELP REDUCE YOUR ELECTRICITY BILL

Streamline Your Turnkey C&I Projects with Canadian Solar's PV & Energy Storage Solutions.

Comprehensive Turnkey Solution

- From engineering and procurement to commissioning and maintenance
- Seamlessly integrates with new or existing PV systems and other energy sources

Flexible and Efficient Operations

- Intelligent energy management to reduce energy costs
- Design to operate on peak shaving, energy arbitrage, and backup power among many other applications

Modular & Scalable Product Design with Integrated Safety Systems

- The modular configuration of the Battery Energy Storage System KuBank adapts easily to future augmentations
- Integrated liquid cooling and fire suppression for enhanced safety

End-to-End Support

- Localized maintenance and on-call technical support
- Custom service packages match your operational needs
